MyWay ★ Diabetes

Digital Diabetes

Support For People with Diabetes

- MyWay Diabetes is an online platform that enables people with all types of Diabetes (and their families/carers) to learn more about their condition.
- The platform provides secure access to Diabetes related health records, along with tailored information and advice, to help people with Diabetes understand their results and improve the way they manage their condition.
- It is centrally funded and is available at no cost to end users across the entire NHS region.

Key Features

- **QISMET-accredited eLearning courses**
- **Public access information site**
- **Secure end user access to their diabetes medical data:**
  1. **Presented via dashboards & graphs**
  2. **Simple explanation of results**
  3. **Tailored advice & support**
  4. **Goal setting, and more!**

MyWay Diabetes also has 9 QISMET-accredited eLearning courses for people with Diabetes, including:

- **Understanding Type 1 Diabetes**
- **Growing Up with Type 1**
- **Living with Type 1**
- **Carbohydrate Counting**
- **My Insulin Pump**
- **Considering an Insulin Pump?**
- **My Type 2 Diabetes**
- **Type 2 Diabetes Prevention**
- **My Gestational Diabetes**

End user benefits include:

A greater understanding of your condition, improving the way you manage it, and more informed discussions with your healthcare professional.

How do I access MyWay Diabetes?

Enrol using NHS login by clicking the **'Register' button'** on your regional site

If your data is blank, please contact your GP practice and ask them to 'enable EMIS Bulk', or contact us at ***support@mwdh.co.uk*** *and we will help)*
