About Us

MyWay Digital Health Ltd is a purpose-driven SME that was spun-out of Dundee University in Jan 2017, with the aim of supporting chronic disease management globally through affordable data-driven approaches starting with diabetes. Our flagship self-management platform, MyWay Diabetes (previously known as MyDiabetesMyWay- the national diabetes platform in Scotland) has a very strong evidence base and value story. Current coverage is around 1/4 of NHS England and over 60,000 data registrants/ >500,00 people have used our platform to access advice. We aim to grow our UK market coverage further through additional products and services including clinician facing platforms and cutting edge AI-driven predictive analytics tools. Internationally, we have set up an office in Dubai and are running pilot project in India and Middle East. This is an incredibly exciting time to be joining the company and the possibilities are almost limitless for the right candidate.

The existing team are friendly, positive and keen to make a difference.

Our Vision: Transforming Care of Diabetes and other Long Term Conditions

Our Mission: Improving the lives of people living with chronic conditions through data driven technology solutions
